

AWARD IN SOCIAL AND THERAPEUTIC HORTICULTURE

Is awarded to

CLAIRE DAVIES

who attended

Thrive

This qualification equates to a 10 Credit Accumulation Transfer Scheme (CATS points) course at Undergraduate Level 1.

Learning outcomes achieved:

- Describe the way that STH can be beneficial for a specific client group (chosen by the participant) and meet that client group's support needs
- Design a coherent horticultural programme that can meet the specific needs of a chosen client group and the individuals within this group
- Identify and select an appropriate and relevant assessment method that could be used with the group
- Develop a rationale based upon evidence to justify this choice.
